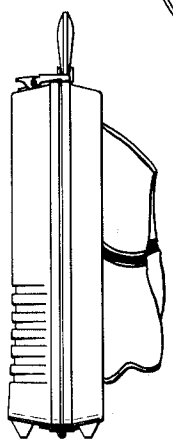

Fig. 8.

FIG. 1 is a side perspective view of a luggage case having a convertible side section showing our new design with the auxiliary bag of the convertible section in its position of use;

FIG. 2 is a perspective view of the opposite side thereof;

FIG. 3 is a view like that of FIG. 1 but with the position of the convertible section showing the reverse plain face;

FIG. 4 is a side elevational view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a view like that of FIG. 4 but with the convertible section in the position of FIG. 1;

FIG. 7 is a top plan view thereof; and

FIG. 8 is an end elevational view thereof.

The end not shown is a mirror image of that shown in FIG. 8, except for variations in shape which may be assumed by the auxiliary bag and other differences in the appearance thereof which appear in FIGS. 1, 6 and 7.

We claim:

The ornamental design for a luggage case having a convertible side section, substantially as shown and described.
